PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience building full-stack web applications using Python, Django, REST APIs, React.js, JavaScript, SQL, PostgreSQL and MySQL. Experienced in backend services, third-party API integration, authentication and role-based authorization, debugging and responsive frontend development. Strong foundation in OOP, Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems and SDLC, with practical experience in Git/GitHub, Cloud Computing (AWS EC2/S3) and Agile development. Passionate about Generative AI, with experience building RAG and LangChain applications and using ChatGPT, Claude, Gemini, GitHub Copilot and Microsoft Copilot to speed up coding, learning and problem-solving. Seeking an Associate Software Engineer role.

TECHNICAL SKILLS

- **Programming & Core Concepts:** Python, JavaScript, SQL, Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems (Linux), SDLC, Software Design Principles, Exception Handling.
- **Tools & Development:** Git/GitHub, VS Code, Agile Development, Debugging & Testing.
- **Frameworks & Web:** Django, REST APIs, React.js, Ionic Angular, HTML/CSS, Bootstrap, Responsive Design.
- **Databases:** MySQL, PostgreSQL.
- **Cloud:** AWS(EC2/S3/IAM)
- **Generative AI & ML:** Generative AI, LLM Fundamentals, RAG, LangChain, n8n Workflow, OpenAI API, Groq API, Gemini API, ChatGPT, Claude, Gemini, GitHub Copilot, Microsoft Copilot, Claude Code, Machine Learning, OpenCV.

INTERNSHIP

Developer Trainee — National Informatics Centre (IT Services)

Chennai | Jan 2026 – May 2026

- Worked across UI development, API integration, Git, testing and debugging, learning through hands-on implementation and collaboration with backend teams.
- Adapted to an urgent requirement and delivered the application within 2 days for end-user use, demonstrating quick learning and ownership.
- Quickly learned and adapted to a new mobile development stack, using existing application architecture and AI-assisted development tools to build and customize a hybrid temple geotagging application.

Full Stack Developer Intern — Altruisty (IT Services)

Chennai | Jan 2025 – Mar 2025

- Built a Django quiz application with CRUD operations and MySQL database integration, contributing across frontend and backend development.
- Debugged and tested application features, gaining hands-on experience in API/backend logic, database operations and full-stack development.

PROJECTS

StyleNest E-Commerce Web App — Python, Django, MySQL, RAG, LangChain

- Developed a full-stack e-commerce application using Django and MySQL, implementing authentication, product catalog, cart, and order management.
- Integrated Razorpay payment gateway and AI chatbot for intelligent customer services and assistance.

Hybrid Mobile Application for Geotagging of Temple — Ionic Angular, PostgreSQL, PHP

- Developed a role-based hybrid mobile application for the HR&CE Department to add new temple locations and update incorrect locations.
- Built responsive mobile interfaces using Ionic, Angular, TypeScript, HTML and CSS, and integrated PostgreSQL with Leaflet/GeoServer for map-based geospatial functionality.

Document Intelligence RAG Assistant — Python, Flask, LangChain, Groq AI, Qdrant, RAG, Embeddings

- Built a RAG document Q&A system using flask, LangChain, Qdrant and Groq with ~90–95% accuracy across 50+ queries.
- Implemented document processing, chunking, embeddings and semantic retrieval for PDF, Word and Excel files.

EDUCATION

B.Tech, Computer Science & Engineering — Jerusalem College of Engineering, Chennai

2022 – 2026 | CGPA: 9.0/10

Higher Secondary (12th) — Daniel Thomas Matriculation Higher Secondary School, Chennai

2021 – 2022 | 90%

CERTIFICATIONS

- AWS Services Fundamentals for Beginners — Simplilearn SkillUp
- Build AI Agents using LangGraph — Simplilearn SkillUp
- Introduction to SQL — Simplilearn SkillUp
- Deloitte Data Analytics Job Simulation — Forage
